EDUCATION

UC Berkeley – Bachelor of Science in Electrical Engineering and Computer Science Expected May 2029
GPA: **4.0**

PROJECTS

Combat Robotics at Berkeley, UC Berkeley, CA 9/9/2025 – Present

- Direct software and design of a **3-person team** developing a plastic **1lb** and a metal **3lb** melty brain combat robot
- Implemented custom drivers in C for I²C sensor interfacing
- Designed, manufactured, and assembled a competitive plastic **1lb** melty brain for **~\$100**

Underwater Robotics at Berkeley, UC Berkeley, CA 9/3/2025 – Present

- Engineered a compact, efficient electronics housing by integrating electrical and mechanical subteam feedback
- Initiated resource cataloguing efforts across electrical and mechanical subteams which **saved the team \$1000+**

Physical Digital Darts – devpost.com/software/digital-physical-darts-wii-darts 10/24/2025 – 10/26/2025

- Won Best Beginner Hack out of **700 projects at CalHacks 12.0** by leading a **team of 4** to develop a compact, dart-shaped controller with an onboard accelerometer and an accompanying Python dartboard simulation
- Integrated a custom Python dartboard simulation with real-time accelerometer orientation data

A Telescoping Phone Holder – devpost.com/software/a-telescoping-phone-holder 11/19/2025 – 11/23/2025

- Won Best Overall CAD Project and Best Project in Support of Engineering out of **70 participants during The CAD Challenge** as a part of a **team of 3** by creating a customizable, modular telescoping phone holder
- Documented the project in a **2-page design portfolio** and advertised the project with a fully custom **3-min video**

DoodleDogs – github.com/LarryHellen/DoodleDogs 8/17/2021 – 8/17/2022

- Won the Congressional App Challenge for CA31 as a C# engineer and scrum master for a **team of 6**
- **Achieved 200+ downloads** through developing a 2D, story-driven, iOS mobile game using Unity

WORK EXPERIENCE

STEM Tutor, Center For Access to Engineering Excellence – UC Berkeley, CA Feb 2026 – Present

- Provide **1-on-1** tutoring in UC Berkeley’s Calculus 1, 2, and 3 and introductory Computer Science classes

Freelance STEM (Python + Calculus) Tutor, Freelance Sep 2024 – Present

- Provide weekly Python instruction focused on foundational programming concepts (**75+ total hours** and counting)
- Mentored multiple AP Calculus AB high school students in **weekly 1-on-1** meetings for a **total of 42+ hours**

Code Coach, theCoderSchool – Pasadena, CA Jul 2024 – Jul 2025

- Tutored students in Unity/C#, Python, and Scratch through personalized, **1 hour** sessions (**175+ total hours**)
- Provided a **concise ~250 word summary** of each session to parents/guardians of students
- Co-taught **20** students the basics of Python and robotics in **2** weeklong summer programs for **60+ total hours**

Content Creator, Singleton Foundation – Pasadena, CA Jul 2023 – Feb 2024

- Produced **15 promotional videos** for Venture Valley, handling all scripting, recording, and editing
- Created tutorial videos for Polish teachers and students as part of a Venture Valley and Polish gov. partnership

Quality Assurance Intern, Singleton Foundation – Pasadena, CA Jun 2023 – Jul 2023

- Tested the mobile version of Venture Valley for any bugs, accumulating **60+ total hours** of debugging
- Documented each bug with a video or image, steps for reproducing the bug, and a precise explanation of the bug

TECHNICAL SKILLS

LANGUAGES: C, C#, Java, Python, Scheme, SQL

OTHER: Agile development

SOFTWARE: DaVinci Resolve, Fusion 360, Onshape, Unity
